# Advantages of uPVC

UJJWAL WINDOWS Pvt Ltd

## Uv Protected

uPVC are highly durable and are UV resistant.

## Sound Insulation

The noise level especially in areas with heavy traffic can be considerably decreased by uPVC.

## Air Tightness

During high wind & pressure even during typhoons, Thus keeps the home dust proof or safe.

## Security

uPVC doors or windows offers multipoint locking system, provide superior security.

## Weather Resistant

uPVC doors or windows are weather proof.

## Maintenance Free

uPVC profiles will never require any painting or varnishing, leaving you with more time to relax.

## Termite Resistant

uPVC being a synthetic product, absolutely no necessity to spend on periodical termite control. Termites or any other insects are not drawn to uPVC at all.

## Corrosion Resistant

uPVC doors and window systems are free from attack of acids, alkali, waste gases and salts.

## Environment Friendly

use less energy at the time of production; hence more environment friendly.

# Green world

Sustainability & eco-management

UPVC are designed to provide excellent thermal insulation and are known for their low conductivity, making them energy-efficient for windows. They are also resistant to rot, corrosion, and require minimal maintenance, making them a popular choice for casement windows. The specific composition may vary among manufacturers and product lines, but these are the key components typically found in **UPVC doors and windows**
